RAIL REALTY

The Rail Realty project is coming along and will be open for tenants by mid-July. This project is more than impressive, bragging a fitness center, washer dryers in each unit, stainless steel appliances and granite in the kitchen and baths, great views from every window and an outdoor BBQ and gas fire pit courtyard open to all residents. The units are spacious and range in rent from \$1695 - \$2,300 for the two bedrooms. We hear they are leasing FAST!

UPPER PORT REVITALIZATION UPDATE

On May 16th the Board of Trustees passed a resolution declaring upper port "an Urban Renewal Area" adopting a blight study recently completed by VHB identifying several properties as "blighted" according to a number of standards, including vacancies, numerous code violations and Suffolk police calls with the last year. The Mayor and Board will be completing the new overlay zone with a public hearing scheduled for July as well as an urban renewal plan - the last piece to enable to Village to consider working with a Master Developer to remove the blighted buildings and begin renewing the street scape in upper port. Importantly, these steps also now qualify the Village for County and State funds to help provide affordable housing with a possible partnership with Stony Brook University.
