MS4 Municipal Compliance Certification(MCC) Form
--

MCC form for period ending March 9, 2 0 1 8

	 SPE	DES	ID						
Name of MS4 Village of Port Jefferson	Ν	Y	R	2	0	A	3	2	6

Each MS4 must submit an MCC form.

Section 1 - MCC Identification Page

Indicate whether this MCC form is being submitted to certify endorsement or acceptance of:

- An Annual Report for a single MS4
- A Single Entity (Per Part II.E of GP-0-10-002)
- A Joint Report

Joint reports may be submitted by permittees with legally binding agreements.

If Joint Report, enter coalition name:

Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for <u>each</u> of the following positions as indicated below:

- 1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
- 2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
- 3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
- 4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
- 5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- Principal Executive Officer/Chief Elected Official
- \bigcirc Duly Authorized Representative
- \bigcirc Local Stormwater Public Contact
- \odot Stormwater Management Program (SWMP) Coordinator
- \bigcirc Report Preparer

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Number of visits (i.e., "hits") on Stormwater Management webpage.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

There were a total of 207 hits and 205 unique hits on the Stormwater Management webpage. This is in line with prior years, which averaged 200-300 total hits.

The total number of visits to the stormwater management website is reported in C. below.

C. How many times was this observation measured or evaluated in this reporting period?

2 0 7

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

• Yes \bigcirc No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP? • Yes • No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Update the stormwater management webpage as necessary.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

1. Sponsor beach clean-ups organized by Coastal Steward.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

1. Good turnout of 99 total attendees for three beach cleanups in Port Jefferson Harbor.

C. How many times was this observation measured or evaluated in this reporting period?

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

• Yes \bigcirc No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

• Yes \bigcirc No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

1. Continue to sponsor and support beach clean-up events organized by Coastal Steward.

<u>Minimum Control Measures 4 and 5.</u> <u>Construction Site and Post-Construction Control</u>

The information in this section is being reported (check one):

- On behalf of an individual MS4
- \bigcirc On behalf of a coalition

How many MS4s contributed to this report?

- 1a. Has each MS4 contributing to this report adopted a law, ordinance or other regulatory mechanism that provides equivalent protection to the NYS SPDES General Permit for Stormwater Discharges from Construction Activities? • Yes • No
- 1b. Has each Town, City and/or Village contributing to this report documented that the law is equivalent to a NYSDEC Sample Local Law for Stormwater Management and Erosion and Sediment Control through either an attorney certification or using the NYSDEC Gap Analysis Workbook?
 Yes
 No
 NT

 If Yes, Towns, Cities and Villages provide date of equivalent NYS Sample Local Law.
 09/2004
 03/2006
 NT

 2. Does your MS4/Coalition have a SWPPP review procedure in place?
 Yes
 No
- 3. How many Construction Stormwater Pollution Prevention Plans (SWPPPs) have been reviewed in this reporting period?
- 4. Does your MS4/Coalition have a mechanism for receipt and consideration of public comments related to construction SWPPPs?
 Yes
 No
 NT

If Yes, how many public comments were received during this reporting period?

5. Does your MS4/Coalition provide education and training for contractors about the local SWPPP process? • Yes • No

6. Identify which of the following types of enforcement actions you used during the reporting period for construction activities, indicate the number of actions, or note those for which you do not have authority:

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- \bigcirc On behalf of a coalition

How many MS4s contributed to this report?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9, 2 0 1 8

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition	Village of Port Jefferson
-----------------------	---------------------------

2. Provide the following information about municipal operations good housekeeping programs:

C	Parking Lots Swept (Number of acres X Number of times swept)	# Acres		1	0	1	2
	Streets Swept (Number of miles X Number of times swept)	# Miles			5	2	0
C	Catch Basins Inspected and Cleaned Where Necessary	#				1	5
	Post Construction Control Stormwater Management Practices Inspected and Cleaned Where Necessary	#				1	6
C	Phosphorus Applied In Chemical Fertilizer	# Lbs.			1	0	3
	Nitrogen Applied In Chemical Fertilizer	# Lbs.		2	3	6	8
C	Pesticide/Herbicide Applied (Number of acres to which pesticide/herbicide was applied X Number of times applied to the nearest tenth.)	# Acres	1	7	1 2	2.	0

- 3. How many stormwater management trainings have been provided to municipal employees during this reporting period?
- 4. What was the date of the last training?
- 5. How many municipal employees have been trained in this reporting period?
- 6. What percent of municipal employees in relevant positions and departments receive stormwater management training?

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9, 2 0 1 8

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition Village of Port Jefferson

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

1. Number of catch basins inspected and cleaned.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

1. Inspection and maintenance are typically completed during the Fall season.

C. How many times was this observation measured or evaluated in this reporting period?

(ex.: samples/participants/events)

1 5

D. Has your MS4 made progress toward this measurable goal during this reporting period?

• Yes \bigcirc No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

• Yes O No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

1. Continue to monitor the number of catch basins inspected and cleaned.

INTERIM PROGRESS REPORTS

Progress Report for Part IX.C Pathogen Impaired Watershed Improvement Strategy Areas

NYR20A326 PERMIT # MS4 Name | Village of Port Jefferson

Waterbody Name | Port Jefferson Harbor

(mm/dd/yyyy)

Reporting Period Ending 0 3 / 0 9 / 2 0 1 8

Reaffirmation for No Discharge

The Municipal Seperate Storm Sewer System as defined in 40 CFR 122.26(b)(8) and (16) including roads with drainage systems, municipal streets. catch basins, curbs, gutters. ditches, man-made channels, or storm drains that the owns or operates does not have any outfalls that discharge directly or indirectly through another MS4, into the

Watershed Status

Please describe what your stormwater management program is doing to address the source of pathogens to the impaired waterbody

The Village's Watershed Management Plan identified five objectives to reduce pathogen loading including proper disposal of pet waste, illicit discharge detection, proper maintenance of on-site septic systems, proper recreational vessel sewage disposal, and managing waterfowl populations.

If you suspect the sources of pathogens that contribute a load to this watershed through the MS4 are something other than the sources listed in the TMDL, please state what you believe to be the suspected sources and how they were determined.

```
The TMDL report stated that vessel-derived human waste was not a major source of
pathogens since Port Jefferson Harbor is a No Discharge Zone and that there were
two pump-out facilities available to vessels (pg. 36). However, analysis of fecal
and total coliform concentrations on a monthly basis indicates that concentrations
increase beginning in June and decline beginning in October, which coincides with
the boating season. Interviews with local marina employees identified transient
vessels as most likely to discharge vessel sewage into Port Jefferson Harbor.
```

Public Education & Outreach of Pathogens as the Pollutant of Concern

1. Description of the education program.

```
Brochures are distributed to educate the public regarding locations of recreational
vessel pump-out stations and to not feed wild waterfowl; newspaper advertisements
describe proper pet waste disposal and maintaining of septic systems; and vessel
No Discharge Zone signs were installed at locations along the Harbor. Printed
materials are also maintained on the Village's stormwater management web page.
```

2. Who are the target audiences and what is the message delivered to each target audience?

The general public is the target audience. The message is that bacteria from human and animal wastes can make waterbodies unsafe for swimming, fishing, and shellfishing.

3. How are behavior changes being measured?

The effectiveness of public education campaigns is typically measured in terms of self-reported behavioral change, e.g., through interviews or phone surveys. The Village does not have the funding available to conduct in-depth surveys, but rather measures the effectiveness of public education through the number of "hits" on its stormwater management webpage.

NYR20A326

4. What are the education plans and goals for the next 6 months?

Continue to distribute materials, maintain the website, and provide updated educational materials on the stormwater management website.

Illicit Discharge Detection and Elimination

5. What has been done to actively look in these watersheds for Illicit discharges? Describe procedures and staff that are involved in this reconnaissance.

The Village has a procedure for identifying, evaluating, tracking, and eliminating illicit discharges. Department of Public Works employees, Parks Department employees, and Building Inspectors are trained in this procedure. Stormwater outfalls are monitored for illicit discharges by the Stormwater Management Program Administrator.

Answer Either 6a. or 6b.

6a. No Illicit Discharges were discovered during this reporting period Explain how the determination for No Illicit Discharges was made

No reports of illicit discharges were reported by the Stormwater Management Program Administrator or Department of Public Works employees or Building Inspectors

6b. Illicit Discharges were discovered during this reporting period What has the municipality determined from the illicit discharges that have been found?

No illicit discharges were identified during the reporting period

Complete Either 7a. (Map) or 7b. (Written Response)

- 7a. Attach a map showing where IDDE outfall inspections have occurred this reporting period, which outfalls have illicit discharges, and if the discharge has been removed, where the illicit connection is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)
- 7b. Give the number of inspections performed during this reporting period. # Inspections (Provide municipal identification #s for all outfalls inspected)

State which outfalls have illicit discharges and whether or not the illicit discharge has been removed. Also describe where the illicit discharge is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

0

Inspections of the 28 outfalls discharging to Port Jefferson Harbor are typically conducted in April

NYR20A326

Post Construction Stormwater Management

- 8. Number of Post Construction Stormwater Management Practices (SMPs) that discharge to an MS4 that drains to the listed waterbody
- # SMPs
- As part of the RFI sent by the Department in August 2016, the information in #8 has already been submitted a. Describe the municipality's policy on post construction stormwater management

SMPs (Village-owned and privately-owned) have been inventoried. Village-owned SMPs are periodically inspected and maintenance is performed as necessary. Privately-owned SMPs do not discharge to the MS4.

9. Describe the Post-Construction Stormwater Management plan and goals for the next 6 months

Continue to inspect Village-owned SMPs and perform maintenance as necessary.

Municipal Operations Pollution Prevention/Good Housekeeping

- □ Non-Traditional MS4 (skip Question 10)
- 10a. Is pet waste an issue in the MS4 areas? If pet waste is not an issue please describe, in the box below, the reasoning behind this viewpoint.

Pet waste is not an issue in the MS4. Inspections of public parks and roadways have not resulted in reports of pet waste deposits, and pet bag stations are periodically re-filled. DNA analysis of E.coli in stormwater samples did not identify dogs as a source, but rather Mute Swan and ducks.

10b. If pet waste is a problem, where has it been found to be a problem? Are there any areas where pets are known to frequent (such as parks, road ends, boat launches, marinas, trails). Are there any indications that pet waste is being disposed of improperly (ie. dumped into a catch basin)?

Pet waste has not been identified as a problem

10c. What strategies are in place to manage the proper disposal of pet waste? What strategies are planned to improve pet waste disposal practices in areas identified in need of improvement?

The Village has an ordinance on pet waste, maintains pet waste bag stations, and includes proper disposal of pet waste in educational programs. All action items of the pet waste management objective of the Watershed Management Plan have been completed and will be maintained.

PERMIT # NYR20A326

10d. What measurable indicators are being used to help determine the effectiveness of these strategies?

Reports of pet waste deposits (none) and citations for pet waste violations (none).

11a. Is the goose population an issue in the MS4 areas? If the goose population is not an issue please describe, in the box below, the reasoning behind this viewpoint.

The goose population is not an issue in the Village as determined by the lack of community-wide nuisance situation reports and the lack of perceived threats to human society and safety reports. Additionally, DNA analysis of E.coli in stormwater samples did not identify Canada geese as a source, but rather Mute Swan and ducks.

11b. If the geese are a problem, where has it been found to be a problem? Provide a description of the location or a map showing the areas of high population density of geese.

The goose population has not been identified as a problem

11c. What strategies are in place to manage the population of geese on municipal properties?

The Village has developed a brochure educating the public to not feed wild waterfowl, the Village has an ordinance prohibiting the feeding of wild waterfowl, and, if required, removal of goose nests and/or lethal methods will be implemented in accordance with the Goose Management Plan.

11d. What measurable indicators are being used to help determine the effectiveness of these strategies?

Educational and enforcement strategies have been effective as evidenced that goose populations in the Village have not resulted in nuisance reports.

Progress Report for Part IX.C Pathogen Impaired Watershed Improvement Strategy Areas

PERMIT # NYR20A326

Waterbody Name Mt Sinai Harbor and Tidal Tributaries

MS4 Name Village of Port Jefferson

Reporting Period Ending

Reaffirmation for No Discharge

The Municipal Seperate Storm Sewer System as defined in 40 CFR 122.26(b)(8) and (16) including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains that the ______ owns or operates does not have any outfalls that discharge directly or indirectly through another MS4, into the ______

Watershed Status

Please describe what your stormwater management program is doing to address the source of pathogens to the impaired waterbody

The Village's Watershed Management Plan identified five objectives to reduce

pathogen loading including proper disposal of pet waste, illicit discharge

detection, proper maintenance of on-site septic systems, proper recreational

vessel sewage disposal, and managing waterfowl populations.

Only one outfall discharges from the Port Jefferson MS4 to the Mt. Sinai Harbor

and Tidal Tributaries subembayment.

If you suspect the sources of pathogens that contribute a load to this watershed through the MS4 are something other than the sources listed in the TMDL, please state what you believe to be the suspected sources and how they were determined.

Not applicable

Public Education & Outreach of Pathogens as the Pollutant of Concern

1. Description of the education program.

Brochures are distributed to educate the public regarding locations of recreational vessel pump-out stations and to not feed wild waterfowl; and newspaper advertisements describe proper pet waste disposal and maintaining of septic systems. Printed materials are also maintained on the Village's stormwater management web page.

2. Who are the target audiences and what is the message delivered to each target audience?

The general public is the target audience. The message is that bacteria from human and animal wastes can make waterbodies unsafe for swimming, fishing, and shellfishing.

3. How are behavior changes being measured?

The effectiveness of public education campaigns is typically measured in terms of self-reported behavioral change, e.g., through interviews or phone surveys. The Village does not have the funding available to conduct in-depth surveys, but rather measures the effectiveness of public education through the number of "hits" on its stormwater management webpage.

4. What are the education plans and goals for the next 6 months?

Continue to distribute materials, maintain the website, and provide updated educational materials on the stormwater management website.

Illicit Discharge Detection and Elimination

5. What has been done to actively look in these watersheds for Illicit discharges? Describe procedures and staff that are involved in this reconnaissance.

The Village has a procedure for identifying, evaluating, tracking, and eliminating illicit discharges. Department of Public Works employees, Parks Department employees, and Building Inspectors are trained in this procedure. Stormwater outfalls are monitored for illicit discharges by the Stormwater Management Program Administrator.

Answer Either 6a. or 6b.

NYR20A326

6a. No Illicit Discharges were discovered during this reporting period Explain how the determination for No Illicit Discharges was made

No reports of illicit discharges were reported by the Stormwater Management Program Administrator or Village of Port Jefferson employees

6b. Illicit Discharges were discovered during this reporting period What has the municipality determined from the illicit discharges that have been found?

No illicit discharges were identified during the reporting period

Complete Either 7a. (Map) or 7b. (Written Response)

- 7a. Attach a map showing where IDDE outfall inspections have occurred this reporting period, which outfalls have illicit discharges, and if the discharge has been removed, where the illicit connection is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)
- 7b. Give the number of inspections performed during this reporting period. # Inspections (Provide municipal identification #s for all outfalls inspected)

State which outfalls have illicit discharges and whether or not the illicit discharge has been removed. Also describe where the illicit discharge is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

0

Inspection of Outfall OF27 is typically conducted in April

NYR20A326

Post Construction Stormwater Management

- 8. Number of Post Construction Stormwater Management Practices (SMPs) that discharge to an MS4 that drains to the listed waterbody
- # SMPs
- As part of the RFI sent by the Department in August 2016, the information in #8 has already been submitted a. Describe the municipality's policy on post construction stormwater management

No Village-owned or privately-owned SMPs discharge to the MS4 outfalls discharging to the Mt. Sinai Harbor and Tidal Tributaries subembayment.

9. Describe the Post-Construction Stormwater Management plan and goals for the next 6 months

No Village-owned or privately-owned SMPs discharge to the MS4 outfalls discharging to the Mt. Sinai Harbor and Tidal Tributaries subembayment.

Municipal Operations Pollution Prevention/Good Housekeeping

- □ Non-Traditional MS4 (skip Question 10)
- 10a. Is pet waste an issue in the MS4 areas? If pet waste is not an issue please describe, in the box below, the reasoning behind this viewpoint.

Pet waste is not an issue in the small residential area discharging to the subembayment. Inspections of roadways have not resulted in reports of pet waste deposits.

10b. If pet waste is a problem, where has it been found to be a problem? Are there any areas where pets are known to frequent (such as parks, road ends, boat launches, marinas, trails). Are there any indications that pet waste is being disposed of improperly (ie. dumped into a catch basin)?

Pet waste has not been identified as a problem

10c. What strategies are in place to manage the proper disposal of pet waste? What strategies are planned to improve pet waste disposal practices in areas identified in need of improvement?

The Village has an ordinance on pet waste, maintains pet waste bag stations, and includes proper disposal of pet waste in educational programs. All action items of the pet waste management objective of the Watershed Management Plan have been completed and will be maintained.

PERMIT # NYR20A326

10d. What measurable indicators are being used to help determine the effectiveness of these strategies?

Reports of pet waste deposits (none) and citations for pet waste violations (none).

11a. Is the goose population an issue in the MS4 areas? If the goose population is not an issue please describe, in the box below, the reasoning behind this viewpoint.

The goose population is not an issue in the area discharging to the subembayment because the area is characterized as medium-density residential and is not ideal for goose habitat. Additionally, there is a lack of reports of communitywide nuisance situations and perceived threats to human society and safety.

11b. If the geese are a problem, where has it been found to be a problem? Provide a description of the location or a map showing the areas of high population density of geese.

The goose population has not been identified as a problem

11c. What strategies are in place to manage the population of geese on municipal properties?

The Village has developed a brochure educating the public to not feed wild waterfowl, the Village has an ordinance prohibiting the feeding of wild waterfowl, and, if required, removal of goose nests and/or lethal methods will be implemented in accordance with the Goose Management Plan.

11d. What measurable indicators are being used to help determine the effectiveness of these strategies?

Educational and enforcement strategies have been effective as evidenced that goose populations in the Village have not resulted in nuisance reports.

10d. What measurable indicators are being used to help determine the effectiveness of these strategies?

Reports of pet waste deposits (none) and citations for pet waste violations (none).

11a. Is the goose population an issue in the MS4 areas? If the goose population is not an issue please describe, in the box below, the reasoning behind this viewpoint.

The goose population is not an issue in the area discharging to the subembayment because the area is characterized as medium-density residential and is not ideal for goose habitat. Additionally, there is a lack of reports of communitywide nuisance situations and perceived threats to human society and safety.

11b. If the geese are a problem, where has it been found to be a problem? Provide a description of the location or a map showing the areas of high population density of geese.

The goose population has not been identified as a problem

11c. What strategies are in place to manage the population of geese on municipal properties?

The Village has developed a brochure educating the public to not feed wild waterfowl, the Village has an ordinance prohibiting the feeding of wild waterfowl, and, if required, removal of goose nests and/or lethal methods will be implemented in accordance with the Goose Management Plan.

11d. What measurable indicators are being used to help determine the effectiveness of these strategies?

Educational and enforcement strategies have been effective as evidenced that goose populations in the Village have not resulted in nuisance reports.

Progress Report for Part IX.C Pathogen Impaired Watershed Improvement Strategy Areas

PERM	1IT #	NYR20A326	Waterbody Name	Mt Sinai Harbor and Inner Harbor Subembayment				
MS4 N	Name	Village of Port Jefferson	Reporting Period Endin (mm/dd/yyy					
<u>F</u>	Reaffir	<u>mation for No Discharge</u>	(
	The Municipal Seperate Storm Sewer System as defined in 40 CFR 122.26(b)(8) and (16)							
	including roads with drainage systems, municipal stree <u>ts, catch basins, curbs, gutters,</u>							
	ditches, man-made channels, or storm drains that the Village of Port Jefferson							
	owns or operates does not have any outfalls that discharge directly or indirectly through							
a	anothe	rMS4,intothe[Mt Sinai Harbor and Inner Har	bor Subembayment					
Wate	ershe	d Status						

Please describe what your stormwater management program is doing to address the source of pathogens to the impaired waterbody

If you suspect the sources of pathogens that contribute a load to this watershed through the MS4 are something other than the sources listed in the TMDL, please state what you believe to be the suspected sources and how they were determined.

Public Education & Outreach of Pathogens as the Pollutant of Concern

- 1. Description of the education program.
- 2. Who are the target audiences and what is the message delivered to each target audience?
- 3. How are behavior changes being measured?

NYR20A326

4. What are the education plans and goals for the next 6 months?

Illicit Discharge Detection and Elimination

5. What has been done to actively look in these watersheds for Illicit discharges? Describe procedures and staff that are involved in this reconnaissance.

Answer Either 6a. or 6b.

- 6a.

 No Illicit Discharges were discovered during this reporting period
 Explain how the determination for No Illicit Discharges was made
- 6b. Illicit Discharges were discovered during this reporting period What has the municipality determined from the illicit discharges that have been found?

Complete Either 7a. (Map) or 7b. (Written Response)

- 7a. Attach a map showing where IDDE outfall inspections have occurred this reporting period, which outfalls have illicit discharges, and if the discharge has been removed, where the illicit connection is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)
- 7b. Give the number of inspections performed during this reporting period. # Inspections (Provide municipal identification #s for all outfalls inspected)

State which outfalls have illicit discharges and whether or not the illicit discharge has been removed. Also describe where the illicit discharge is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

NYR20A326

Post Construction Stormwater Management

8. Number of Post Construction Stormwater Management Practices (SMPs) that discharge to an MS4 that drains to the listed waterbody

SMPs

As part of the RFI sent by the Department in August 2016, the information in #8 has already been submitted
 a. Describe the municipality's policy on post construction stormwater management

9. Describe the Post-Construction Stormwater Management plan and goals for the next 6 months

Municipal Operations Pollution Prevention/Good Housekeeping

- □ Non-Traditional MS4 (skip Question 10)
- 10a. Is pet waste an issue in the MS4 areas? If pet waste is not an issue please describe, in the box below, the reasoning behind this viewpoint.
- 10b. If pet waste is a problem, where has it been found to be a problem? Are there any areas where pets are known to frequent (such as parks, road ends, boat launches, marinas, trails). Are there any indications that pet waste is being disposed of improperly (ie. dumped into a catch basin)?

10c. What strategies are in place to manage the proper disposal of pet waste? What strategies are planned to improve pet waste disposal practices in areas identified in need of improvement?

PERMIT #	NYR20A326
----------	-----------

10d. What measurable indicators are being used to help determine the effectiveness of these strategies?

11a. Is the goose population an issue in the MS4 areas? If the goose population is not an issue please describe, in the box below, the reasoning behind this viewpoint.

11b. If the geese are a problem, where has it been found to be a problem? Provide a description of the location or a map showing the areas of high population density of geese.

11c. What strategies are in place to manage the population of geese on municipal properties?

11d. What measurable indicators are being used to help determine the effectiveness of these strategies?
