Application is hereby made for permission to open the highway in front of the premises of _____ in the Village of Port Jefferson, NY

The applicant hereby acknowledges that he/she has reviewed the Work Permit Requirements (on the opposite side of this form) and related details, and agrees to properly protect the excavation and place warning lights thereon at night, if required by the Superintendent of Public Works. The opening shall be properly backfilled and tamped to prevent settling. The original surface shall be replaced with the standard section as agreed to by the Superintendent of Public Works, and shall be completed in the condition it was prior to the opening, to the satisfaction of the Superintendent of Public Works.

All work shall be in conformance with Town of Brookhaven Construction Standards.

Applicant/Contractor shall contact the Superintendent of Public Works at (631)473-4733 at least 24 hours prior to start of work.

Belgium block curbs, brick paver driveways/curbs, overlaid or podged curbs, stamped concrete all require hold harmless agreements. The Village of Port Jefferson will not be responsible for damaged curbs listed above.

Right-of-Way Work Permit Requirements

Any construction-related work proposed within any Village of Port Jefferson right-of-way in connection with residential or commercial/industrial permits, requires a Right-of-Way Work Permit which shall be submitted to the Department of Public Works.

Examples of work which requires a Right-of-Way Work Permit are the installation of curb and/or sidewalk, driveway aprons, curb

cuts, utility tie-ins, drainage, asphalt pavement repair, force mains, etc. Please note the following general requirements:

- **The Right-of-Way Work Permit shall be submitted with a survey with a detailed sketch of the proposed work;**
Plans are to be approved by the Superintendent of Public Works
- **Plans shall include a Maintenance and Protection of Traffic Plan;**
- **Plans shall show all paving and restoration specifications, and shall demonstrate the following:**
 - a. All streets to be impacted must be shown.
 - b. Proposed utilities should be shown in accordance with Town of Brookhaven standard details.
 - c. The sawcut of all trenches. All trenches shall be straight with a 24" minimum trench restoration width for curb and driveway installations, while other trenches are to have a minimum 12" cut back on each side of trench to allow for proper compaction. All trenches parallel to existing curb shall leave a minimum of 36" of asphalt adjacent to curb, otherwise trench limit shall extend to the curb line.
 - d. Pavement restoration shall meet the following requirements:
 1. Residential Street: 6" RCA, 3" NYS Type 3 Binder, VA" Type 6F top course;
 2. Industrial Road: 6" RCA, 4" NYS Type 3 Binder, 2" Type 6F top course.
 3. Tack all vertical edges prior to placement of top coat and A/C all horizontal joints after paving.
 - e. Compaction testing may be required at the discretion of the Superintendent of Public Works
 - f. For excavations impacting the travel lane, temporary asphalt shall be placed and maintained during the settlement period of 2 months (i.e. drainage structures);
- No walls of any type shall be allowed within the public right-of-way;
- Proposed driveways must be a minimum of four feet (4') from the adjacent side property line, and shall not exceed 35% of the front yard area;
- For industrial/commercial applications, and when a contractor is the applicant on residential applications, a \$1 million liability insurance policy shall be submitted, with the Village of Port Jefferson named as an additional insured. This requirement shall not apply to residential applicants for residential work.

This Permit is issued in accordance with and subject to compliance with all Code of Port Jefferson, New York, Excavation on Streets,

Chapter 16. Subject to and compliance with all State, County and Town ordinances. All signs, barricades, lights and other traffic control devices shall be installed and maintained by the contractor in accordance with the provisions of the State Manual of Uniform Traffic Control Devices. The contractor shall be responsible for maintaining this road for the duration of this permit to include, but not be limited to snow, sleet and ice removal. Broken curbs will be replaced from joint to joint unless clear (machine) cut at ten feet intervals. If any traffic equipment is encountered, the contractor shall notify the Dept Of Public Works (631) 473-4733. Compliance with Industrial Code Rule 53 required. Road not to be completely closed off: at least one lane and one intersection must be kept open for traffic at all times. Streets that are wheel cut or done by some other process in preparation for excavation shall be maintained by the contractor relative to pothole buildup. Construction Details shall be submitted with the proposed plan, and shall meet at a minimum, the standard Town of Brookhaven details and specifications as appropriate, including but not limited to the following items:
