Re: Permit #1-4722-01008/00015

Dear Permittee:

In conformance with the requirements of the State Uniform Procedures Act (Article 70, ECL) and its implementing regulations (6NYCRR, Part 621) we are enclosing your permit for the referenced activity. Please carefully read all permit conditions contained in the permit to ensure compliance during the term of the permit. If you are unable to comply with any conditions, please contact us at the above address.

Also enclosed is a permit sign which is to be conspicuously posted at the project site and protected from the weather and a Notice of Commencement/Completion of Construction form.

Sincerely,

Claire Werner
Environmental Analyst II

Under the Environmental Conservation Law (ECL)

Permittee and Facility Information

Permit Issued To:
VILLAGE OF PORT JEFFERSON
121 W BROADWAY
PORT JEFFERSON, NY 11777-1313
(631) 473-4724

Facility:
EAST BEACH
VILLAGE BEACH RD|206-100-200-1000
PORT JEFFERSON, NY 11777

Facility Application Contact:
GEI CONSULTANTS INC
1000 New York Ave
Ste B
HUNTINGTON STATION, NY 11746
(631) 759-2979

Facility Location: in BROOKHAVEN in SUFFOLK COUNTY **Village:** Port Jefferson
Facility Principal Reference Point: NYTM-E: 664.1 NYTM-N: 4536.6
Latitude: 40°57'50.7" Longitude: 73°02'59.6"

Project Location: Village Beach Road **Watercourse:** Long Island Sound
Authorized Activity: Extend existing access ramp to beach by 40', extend toe of rip-rap to match new end of ramp, install 358' of bulkhead at toe of bluff, add two returns, place toe armor immediately seaward of bulkhead, place fill landward of bulkhead as backfill, install 213' of coir logs along bottom of bluff and install timber terracing, coir logs and plantings on the face of the bluff. All authorized activities must be in strict conformance with the attached plans stamped NYSDEC approved on 4/22/2021. (CKW)

Permit Authorizations

Tidal Wetlands - Under Article 25

Permit ID 1-4722-01008/00015

New Permit

Effective Date: 4/22/2021

Expiration Date: 4/21/2026

Excavation & Fill in Navigable Waters - Under Article 15, Title 5

Permit ID 1-4722-01008/00019

New Permit

Effective Date: 4/22/2021

Expiration Date: 4/21/2026

Water Quality Certification - Under Section 401 - Clean Water Act

Permit ID 1-4722-01008/00020

New Permit

Effective Date: 4/22/2021

Expiration Date: 4/21/2026

NYSDEC Approval

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, and all conditions included as part of this permit.

Permit Administrator: SHERRI L AICHER, Deputy Permit Administrator
Address: NYSDEC Region 1 Headquarters
SUNY @ Stony Brook|50 Circle Rd
Stony Brook, NY 11790 -3409

Authorized Signature: Sherril L. Aicher

Permit Components

- NATURAL RESOURCE PERMIT CONDITIONS
- WATER QUALITY CERTIFICATION SPECIFIC CONDITION
- GENERAL CONDITIONS, APPLY TO ALL AUTHORIZED PERMITS
- NOTIFICATION OF OTHER PERMITTEE OBLIGATIONS

NATURAL RESOURCE PERMIT CONDITIONS - Apply to the Following Permits: TIDAL WETLANDS; EXCAVATION & FILL IN NAVIGABLE WATERS; WATER QUALITY CERTIFICATION

- 1. Post Permit Sign** The permit sign enclosed with this permit shall be posted in a conspicuous location on the worksite and adequately protected from the weather.
- 2. Notice of Commencement** At least 48 hours prior to commencement of the project, the permittee and contractor shall sign and return the top portion of the enclosed notification form certifying that they are fully aware of and understand all terms and conditions of this permit. Within 30 days of completion of project, the bottom portion of the form must also be signed and returned, along with photographs of the completed work.

- 3. Conformance With Plans** All activities authorized by this permit must be in strict conformance with the approved plans submitted by the applicant or applicant's agent as part of the permit application. Such approved plans were prepared by GEI Consultants, 5 sheets last revised 11/20/2020, stamped NYSDEC approved on 4/22/2021.
- 4. Concrete Leachate** During construction, no wet or fresh concrete or leachate shall be allowed to escape into any wetlands or waters of New York State, nor shall washings from ready-mixed concrete trucks, mixers, or other devices be allowed to enter any wetland or waters. Only watertight or waterproof forms shall be used. Wet concrete shall not be poured to displace water within the forms.
- 5. Materials Disposed at Upland Site** Any demolition debris, excess construction materials, and/or excess excavated materials shall be immediately and completely disposed of in an authorized solid waste management facility. These materials shall be suitably stabilized as not to re-enter any water body, wetland or wetland adjacent area.
- 6. No Disturbance to Vegetated Tidal Wetlands** There shall be no disturbance to vegetated tidal wetlands or protected buffer areas as a result of the permitted activities.
- 7. Storage of Equipment, Materials** The storage of construction equipment and materials shall be confined to the upland area landward of the bulkhead or on a barge.
- 8. Clean Fill Only** All fill shall consist of clean sand, gravel, or soil (not asphalt, slag, flyash, broken concrete or demolition debris).
- 9. No Beach Excavation For Fill** No excavation of the beach is authorized for the purpose of obtaining fill or stone materials.
- 10. Grade to Match That Adjacent to Bulkhead** All fill must be graded to match the elevation of the land immediately adjacent to the bulkhead.
- 11. Backfilling** All peripheral berms, cofferdams, rock revetments, seawalls, gabions, bulkheads or other approved shoreline stabilization structures shall be completed prior to placement of any fill material behind such structures.
- 12. No Structures on Bulkhead** No permanent structures shall be installed on the authorized bulkhead without first obtaining written department approval (permit, modification, amendment).
- 13. Grade and Stabilize Slope of Tidal Wetland** The existing bank shall be graded and shaped to receive the revetment or other shoreline stabilization structure so that the final toe of slope extends no further seaward or closer to the tidal wetlands than the existing toe of slope.
- 14. Excavation for Bulkhead/Structure** Prior to any construction or removal of bulkheads and other shoreline stabilization structures all backfill shall be excavated landward of the structure and retained so as not to enter the waterway, tidal wetland or protected buffer area.
- 15. Bulkhead Height** The maximum height of the steel wall is +14.0 NAVD 88.
- 16. Bulkhead Length** The maximum linear extent of the bulkhead is 358 feet.

17. **Toe Armor** The maximum projection of the toe armor is six (6) feet seaward of the steel sheeting.
18. **Stone Splash Pad** The maximum projection of the stone splash pad is 10 feet landward of the steel bulkhead.
19. **No Runoff Over or Through Bulkhead or into Wetland** There shall be no discharge of runoff or other effluent over or through any bulkhead or shoreline stabilization structure or into any tidal wetland or protected buffer area.
20. **Bulkhead Decking** No portion of the decking or boardwalk shall extend seaward of the bulkhead sheathing.
21. **Install, Maintain Erosion Controls** Necessary erosion control measures, i.e., straw bales, silt fencing, etc., are to be placed on the downslope edge of any disturbed area. This sediment barrier is to be put in place before any disturbance of the ground occurs and is to be maintained in good and functional condition until thick vegetative cover is established.
22. **Seeding Disturbed Areas** All areas of soil disturbance resulting from the approved project shall be stabilized as per the specifications of the approved plans immediately following project completion or prior to permit expiration, whichever comes first. If the project site remains inactive for more than 48 hours or planting is impractical due to the season, then the area shall be stabilized with straw or hay mulch or jute matting until weather conditions favor germination.
23. **Long Term Plant Survival** The permittee shall ensure a minimum of 85% survival of plantings by the end of 5 growing seasons. If this goal is not met, the permit holder shall re-evaluate the restoration project to determine how to meet the mitigation goal. The permittee must submit these re-evaluation plans to the department for review along with the annual report for that respective calendar year. The report must be submitted by January 15th of each calendar year and sent to:
NYS DEC - Region 1
Bureau of Marine Habitat Protection, Attention Compliance
50 Circle Road
Stony Brook, NY 11790
24. **Contain Exposed, Stockpiled Soils** All disturbed areas where soil will be temporarily exposed or stockpiled for longer than 48 hours shall be contained by a continuous line of staked haybales / silt curtains (or other NYSDEC approved devices) placed on the seaward side between the fill and the wetland or protected buffer area. Tarps are authorized to supplement these approved methods.
25. **Maintain Erosion Controls** All erosion control devices shall be maintained in good and functional condition until the project has been completed and the area has been stabilized.
26. **Machinery Access** Any machinery access occurring below Apparent High Water shall be done only during periods of low tide. When not in use, all equipment and fill shall be moved to an upland location and contained so that it does not come into contact with NY State waters.

27. Precautions Against Contamination of Waters All necessary precautions shall be taken to preclude contamination of any wetland or waterway by suspended solids, sediments, fuels, solvents, lubricants, epoxy coatings, paints, concrete, leachate or any other environmentally deleterious materials associated with the project.

28. State May Require Site Restoration If upon the expiration or revocation of this permit, the project hereby authorized has not been completed, the applicant shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may lawfully require, remove all or any portion of the uncompleted structure or fill and restore the site to its former condition. No claim shall be made against the State of New York on account of any such removal or alteration.

29. State May Order Removal or Alteration of Work If future operations by the State of New York require an alteration in the position of the structure or work herein authorized, or if, in the opinion of the Department of Environmental Conservation it shall cause unreasonable obstruction to the free navigation of said waters or flood flows or endanger the health, safety or welfare of the people of the State, or cause loss or destruction of the natural resources of the State, the owner may be ordered by the Department to remove or alter the structural work, obstructions, or hazards caused thereby without expense to the State, and if, upon the expiration or revocation of this permit, the structure, fill, excavation, or other modification of the watercourse hereby authorized shall not be completed, the owners, shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may require, remove all or any portion of the uncompleted structure or fill and restore to its former condition the navigable and flood capacity of the watercourse. No claim shall be made against the State of New York on account of any such removal or alteration.

30. State Not Liable for Damage The State of New York shall in no case be liable for any damage or injury to the structure or work herein authorized which may be caused by or result from future operations undertaken by the State for the conservation or improvement of navigation, or for other purposes, and no claim or right to compensation shall accrue from any such damage.

31. No Interference With Navigation There shall be no unreasonable interference with navigation by the work herein authorized.

WATER QUALITY CERTIFICATION SPECIFIC CONDITIONS

1. Water Quality Certification The authorized project, as conditioned pursuant to the Certificate, complies with Section 301, 302, 303, 306, and 307 of the Federal Water Pollution Control Act, as amended and as implemented by the limitations, standards, and criteria of state statutory and regulatory requirements set forth in 6 NYCRR Section 608.9(a). The authorized project, as conditioned, will also comply with applicable New York State water quality standards, including but not limited to effluent limitations, best usages and thermal discharge criteria, as applicable, as set forth in 6 NYCRR Parts 701, 702, 703, and 704.

GENERAL CONDITIONS - Apply to ALL Authorized Permits:

1. Facility Inspection by The Department The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71- 0301 and SAPA 401(3).

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

2. Relationship of this Permit to Other Department Orders and Determinations Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

3. Applications For Permit Renewals, Modifications or Transfers The permittee must submit a separate written application to the Department for permit renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing. Submission of applications for permit renewal, modification or transfer are to be submitted to:

Regional Permit Administrator
NYSDEC Region 1 Headquarters
SUNY @ Stony Brook|50 Circle Rd
Stony Brook, NY11790 -3409

4. Submission of Renewal Application The permittee must submit a renewal application at least 30 days before permit expiration for the following permit authorizations: Excavation & Fill in Navigable Waters, Tidal Wetlands, Water Quality Certification.

5. Permit Modifications, Suspensions and Revocations by the Department The Department reserves the right to exercise all available authority to modify, suspend or revoke this permit. The grounds for modification, suspension or revocation include:

- a. materially false or inaccurate statements in the permit application or supporting papers;
- b. failure by the permittee to comply with any terms or conditions of the permit;
- c. exceeding the scope of the project as described in the permit application;

- d. newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e. noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

6. Permit Transfer Permits are transferrable unless specifically prohibited by statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

NOTIFICATION OF OTHER PERMITTEE OBLIGATIONS

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee, excepting state or federal agencies, expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees, and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under Article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.
