

RFP #137-2024 Sidewalk and Curbs

Addendum #3 – July 25, 2024

Q. There are no scaled drawings included in the bid package, how are we to determine what we are bidding?

A. As plans are not available, it is recommended that you visit the sites and measure.

Q. Bid form indicates to Price/Quote each bullet individually. What would the unit of measurement be for each of the individual items (lump sum, each, square foot, linear foot, cubic yard etc.)?

A. Depends on the material – i.e. linear feet for curbing.

Q. Is the dumping of bricks part of the bid and the placing of bricks on pallets an alternate? It should be one or the other.

A. Two different things: the dumping of bricks is for those that are not re-useable. The placing of bricks on pallets is for those that are salvageable.
